Dear Mr. Preston:

The first time I visited a public land site was in 2007 as a newlywed with my husband; we went to Yellowstone. It was incredible and transformative, and I experienced something possibly akin to what President Teddy Roosevelt felt on that legendary trip so many, many years ago. The mission statement of the BLM is something I fully support and defend as a citizen. I would treasure the opportunity to further my education and apply my skills and talent to such a worthy cause. I am an ambitious and conscientious person, and I approach any task that I undertake with a vision for the future. I want to contribute to make the world a better place for present and future generations, and I have accordingly taken steps to further my education in the fields of mathematics and geology. I hope you will reflect on me favorably for the geology internship.

Thank you for reviewing my letter and résumé (enclosed), and for considering me for this internship position.

Sincerely,

Priscila Hoerner
